POINT OF SALE

APPLIOT

TAKE IOT BEYOND

The Challenge

Sustainability & Profitability

Rising customer expectations, complex customer behavior, tracking inventory, and increasing footfall but reducing long queues are some of the daunting challenges facing retailers.

A Digital Future

Growth demands an enhanced retail experience, streamlined operations, seamless data-driven processes, and optimized management and efficiency.

Rigorous Requirements

- Faster check out times during peak hours
- Effective inventory management
- Adaptability & scalability
- Collecting insights & data on customer behaviors
- Enhancing the customer experience
- Customized loyalty programs

The Solution

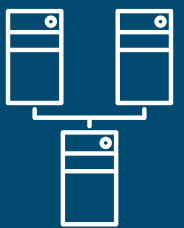

Plug n Play IOT for Retailers

Appliot deploys IOT and the power of AI to keep your Point of Sale running at peak performance and provide real-time insights that support adaptability and scalability.

Fully scalable and end to end, Appliot is the affordable Plug n Play IOT solution to easily transform your sale systems into a smart retail operation.

The compact Appliot terminal features an electronically steered antenna with built-in modem to automatically find coverage for instant, always-on fixed connectivity.

GEO widebeam satellites enable long-range, low-power data transmission to affordably connect all your IOT devices and applications.
