FLEET MANAGEMENT

APPLIOT

TAKE IOT BEYOND

# The Challenge

## Sustainability & Profitability

Fleet management is fast paced, constantly evolving, and comes with the enormous challenge of tracking safety, a growing number of assets and their maintenance.

## A Digital Future

Sustainable growth demands increased efficiency, improved fuel usage, reduced carbon footprint and enhanced safety.

## Rigorous Requirements

- Ever-growing vehicles
- Maintenance schedule
- Asset utilization
- Fleet data
- Parts failure on vehicles
- Wastage of cargo & perishable goods
- Productivity

# The Solution

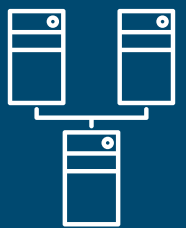

## Plug n Play IOT for Fleet Management

Appliot deploys IOT and the power of AI to keep your fleet running at peak performance and provide real-time insights that boost productivity and increase safety.

Fully scalable and end to end, Appliot is the affordable Plug n Play IOT solution to easily transform your fleet operations into a smart fleet.

The compact Appliot terminal features an electronically steered antenna with built-in modem to automatically find coverage for instant, always-on mobile connectivity.

GEO widebeam satellites enable long-range, low-power data transmission to affordably connect all your IOT devices and applications.
